

## **GUEST PROGRAM**

Below are some itineraries for the guest program based on the following document (where you can read more about the various possibilities):

[https://gemelli.space-science.org/mdenton/italy\\_workshop/docs/DAILY\\_TRIPS.pdf](https://gemelli.space-science.org/mdenton/italy_workshop/docs/DAILY_TRIPS.pdf)

### **Notes:**

- The guest program is additional to the activities covered by the guest registration fee, which are the dinner meals on Sunday and Thursday and the excursion on Wednesday. In fact, the guest program is complementary: it runs on Monday, Thursday and Friday afternoons and Tuesday for the whole day.
- The guest program is not a professional service. It relies on the good will of a person who has agreed to lead the group of interested guests. On the other hand, you can find many professional tours in the area, including hiring a driver that will take you wherever you want to go (search online or ask for directions to the conference organizers).
- You can sign up for any day. However, the guest program will be available only if there are enough guests who sign up.

### **Cost:**

- Participants will pay their own entrance to the various monuments, meals, ....
- There will be an additional cost for transportation (except on Tuesday when guests will go to Turin by train) which will depend on the number of guests. It can be as low as 3 EUR/person/day just to cover fuel/mileage of the conference shuttle to up to 30 EUR/person/day if we have to rent a bus with driver. Another option would be to combine the conference shuttle with some of the guests' cars to avoid renting a bus with driver.

**Deadline to register to the guest program:** May 24<sup>th</sup> 2019, payments will be collected in cash on Monday, June 3<sup>rd</sup> 2019.
